

# Rising Stars

***Tony Favors*** — Tony started working for TRM's Newnan facility on December 9, 2005 as a line loader. From the beginning Tony displayed many unique qualities that made management take notice. Though Tony is a soft spoken young man he demonstrated that he was a dependable, well organized and hard working employee that you could trust to get the job done. Tony was given the opportunity to be in charge of Newnan's dock and at the same time be in charge of Reader's Outlet inventory and shipping. Tony took on the Inventory Detective position while staying in charge of Reader's Outlet. Tony took the next challenge of his TRM career and became Newnan's shipping manger. Tony and his team have taken the Newnan shipping to the next level. When Tony was asked what his greatest TRM accomplishment was, he didn't hesitate. He said that accepting Newnan's shipping manager position stretched him like no other position. It has made him grow as a leader and he loves the everyday challenge. TRM needs more employees like Tony who live by TRM's core values and who are ready to step up when asked.
